PROJECT

- www.liketank.com - Social media growth service Website:
Developed the project from scratch, designed website wireframe, layout, UI, and user flow model, allowing users to quickly find relevant information and make purchases with shortest steps and minimum effort.
Created dynamic and fully responsive frontend templates with React.js/styled-components/react-router/framer-motion. Collaborated with a fellow developer in building the website's backend using Django and PostgreSQL.
Manage the website's SEM to ensure web traffic, page views. Analyze user behavior and user flow to improve, and add new features to the website.
- www.likeswave.com - Social media growth service Website:
Developed the project from scratch, designed website wireframe, layout, UI, and user flow model, allowing users to quickly find relevant information and make purchases with shortest steps and minimum effort.
Created dynamic and fully responsive frontend templates with HTML/CSS/JavaScript/Bootstrap/Jinja.
- www.arjangdev.com - Personal portfolio Website:
Build a stunning portfolio website with React JS using Styled-components and Framer-motion for awesome Animations. Created responsive frontend pages with React.js/styled-components/react-router/framer-motion/react-particles libraries to make beautiful animations.
